

TACHOGRAPH DATA. AUTOMATIC COMPLIANCE WITH THE LAW.

TACHOGRAPH DATA MANAGEMENT

Compliance with the law with minimal effort

Manage tachograph data automatically, enhance legal certainty and reduce administrative burden: our efficient tachograph solution handles tachograph downloads fully automatically. Driver and vehicle data are read, archived and analysed without any manual intervention – directly within our telematics portal, cargofleet 3. This significantly eases the workload on the dispatch team, minimises administrative effort and ensures that the operator card no longer needs to leave the office. This means your fleet remains fully compliant and under complete control at all times.

Automated tachograph download

- Automatic reading of driver cards and mass storage devices
- No more manual data collection required
- The company card remains at the company
- Less administrative effort

Driver status at a glance

- Current driving and rest periods available at any time
- Overview of available driver reserves
- Support with shift planning
- Information on driver activities

Detect infringements early

- Analysis of driving and rest periods
- Monitoring of working hours and speeds
- Support in avoiding fines
- Quick reference for driver meetings and briefings

Compliant with the law and secure

- Meets the requirements for statutory archiving
- Secure, GDPR-compliant storage of all tachograph data
- Access to archived data at any time
- Support with compliance with legal requirements

Fully automated – simple whilst sitting at your desk!

TRANSPARENT
LEGALLY COMPLIANT
EFFICIENT

Your benefits at a glance

- ✓ Fully automated tachograph download
- ✓ Legally compliant and secure tachograph archiving
- ✓ Driver status and remaining driving times always at a glance
- ✓ Automatic analysis of infringements in accordance with legal requirements
- ✓ Support for the Smart Tacho 2
- ✓ Reduced administrative burden in day-to-day operations
- ✓ Avoid fines and reduce risks

About idem telematics GmbH – connecting all road transport

As Europe's leading brand-independent telematics partner, idem telematics supports freight forwarders, fleet operators and shippers in continuously optimising their core business using data – thereby sustainably increasing profitability, customer satisfaction and competitiveness.

At the same time, idem telematics is a strong and independent partner for vehicle manufacturers, supporting them with modular telematics solutions.

Our solutions can be easily integrated into your existing systems. They are manufacturer- and fleet-agnostic and suitable for businesses of all sizes and business models. Our process consultants will be happy to assist you – even on-site!

Our range of services includes a wide variety of hardware and cargofleet3, Europe's leading all-in-one telematics platform for trucks, trailers, freight and logistics. The intelligent networking of freight, drivers and vehicles creates a holistic system that ensures maximum transparency and increases efficiency throughout the entire logistics chain.

Our customers value our strong customer focus and high flexibility in meeting individual requirements, based on over 25 years of experience in telematics, transport and logistics.

idem telematics is a subsidiary of the BPW Group.
