

ALL TOURS AUTOMATED MONITORING

TOUR MONITOR

Manage routes efficiently and reliably

With the Route Monitor, you can manage your transport operations safely, reliably and with complete transparency. Automatic status updates, ETA calculations, alerts and reports monitor every route from start to finish. The intelligent integration with day-to-day operations reduces manual effort, enables proactive customer communication and ensures that your vehicles remain operational and roadworthy at all times.

Automatic route status tracking

- Automatic status updates throughout the route
- Overview of current transport progress
- Greater transparency, less coordination effort

Intelligent alerting

- Route-specific alarm configuration
- Automatic configuration based on route data
- Deviations are actively reported
- No manual configuration required

ETA always in view

- Automatic calculation of the estimated time of arrival
- Early detection of delays
- Proactively inform customers

Even with trailer-only telematics

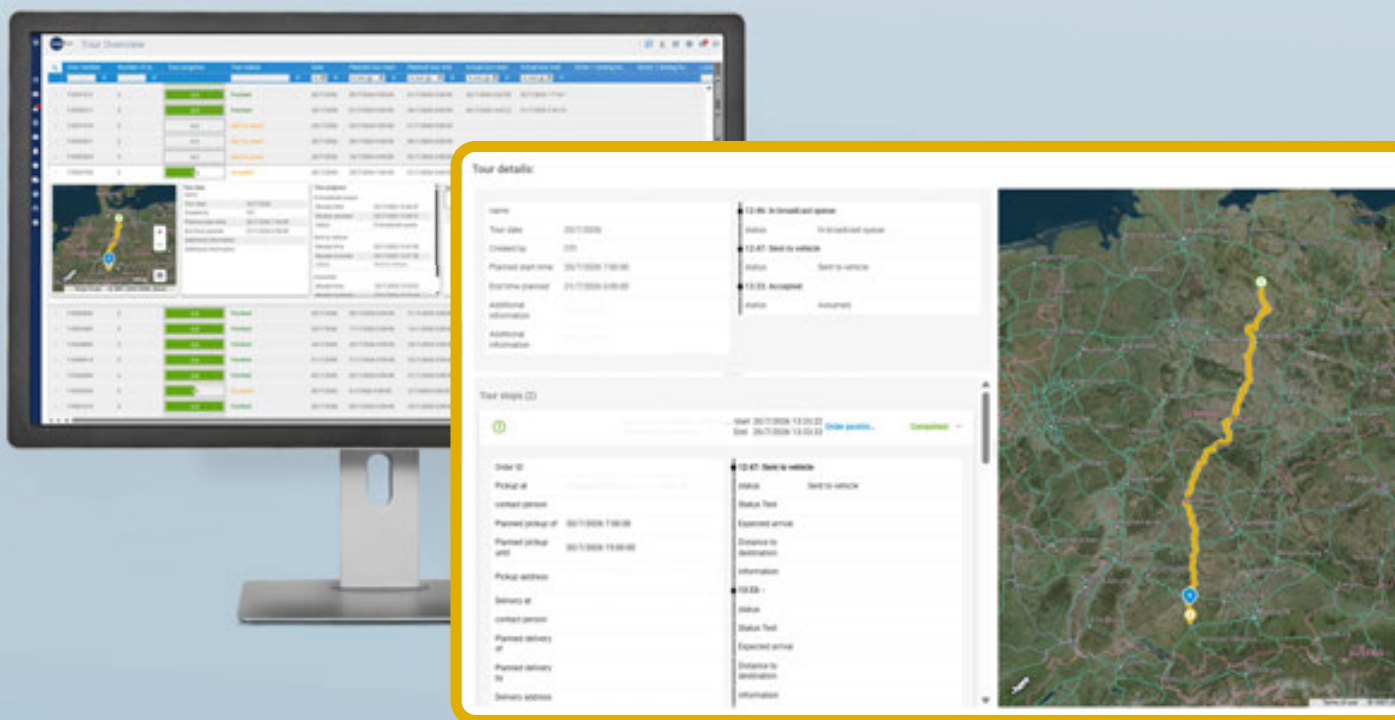

- Route monitoring even without driver input
- Automatic detection of arrival and departure via geofences
- Additional functions such as data forwarding, alarm configuration and reporting are, of course, also available for geofence-based routes

Automatic reports & data transfer

- Automated route and temperature reports
- Provide targeted, route-based data for customers and partners
- Tracking page for selected shipments
- Secure and controlled data transfer

Transparency across the entire transport process for your dispatchers, drivers, customers and service providers.

Benefits at a glance

- ✓ Automatic route monitoring
- ✓ Real-time ETA calculation
- ✓ Route-specific alerts
- ✓ Automatic reports
- ✓ Targeted data sharing
- ✓ Transparency for dispatchers, drivers and customers
- ✓ Can also be used with trailer-only telematics via geofences

**AUTOMATED
TRANSPARENT
ON TIME**

About idem telematics GmbH – connecting all road transport

As Europe's leading brand-independent telematics partner, idem telematics supports freight forwarders, fleet operators and shippers in continuously optimising their core business using data – thereby sustainably increasing profitability, customer satisfaction and competitiveness.

At the same time, idem telematics is a strong and independent partner for vehicle manufacturers, supporting them with modular telematics solutions.

Our solutions can be easily integrated into your existing systems. They are manufacturer- and fleet-agnostic and suitable for businesses of all sizes and business models. Our process consultants will be happy to assist you – even on-site!

Our range of services includes a wide variety of hardware and cargofleet3, Europe's leading all-in-one telematics platform for trucks, trailers, freight and logistics. The intelligent networking of freight, drivers and vehicles creates a holistic system that ensures maximum transparency and increases efficiency throughout the entire logistics chain.

Our customers value our strong customer focus and high flexibility in meeting individual requirements, based on over 25 years of experience in telematics, transport and logistics.

idem telematics is a subsidiary of the BPW Group.
